Counsel is now shut it gate hardware

Welcome to SHUT IT Gate Hardware. SHUT IT Gate Hardware includes BADASS Gate Hinges, HardCORE v-groove wheels, cantilever systems, guides assemblies and gate handling equipment. Explore our new website, learn about our amazing designs, discover our exceptional products and, most importantly, meet our Badass Dealers and Distributors! Once you do, we are certain you will be as excited as we are about being a part of the SHUT IT team.

Why choose shut it?

More importantly, why would you not choose SHUT IT!? Why would you not **want to partner with the Fence and Access Control Industries' best and baddest? In addition to having "Smartass" designs and "Badass" products,** SHUT IT! is backed by over 60 years of fencing and access control experience and partners with the most experienced and qualified dealers and distributors in the industry. The entire SHUT IT! product line has been field tested in extreme conditions before they are made available to the public, so you can be assured that the designs work under the toughest conditions. Additionally, every unit sold is put through a quality control process that is designed to eliminate malfunctions before they leave our warehouses. Finally, with a distribution warehouse on each coast, and distribution channels throughout the United States, you are assured of easy access to all our products.

So again we ask, with smartass designs, badass products and epic results, why would you not choose SHUT IT!?

www.shutitgatehardware.com

Badass gate hinges

desired.

We once asked someone what they thought about the SHUT IT line of gate hinges, and they replied with a simple, “they are BADASS!” Well, we liked that description so much we started referring to them as our BADASS hinges, and when the time came to rename the line, BADASS just felt right. We are thrilled to present the SHUT IT! BADASS Gate Hinges.

www.shutitgatehardware.com

Steel Gate Hinges

The Original Badass Hinge

The ORIGINAL BADASS gate hinge by SHUT IT is CNC machined to the tightest tolerances in the industry. Due to SHUT IT!'s **unique bushing** design The ORIGINAL, like all other SHUT IT! gate

hinges, produces near frictionless movement with maintenance free usage

Specifications:

- Part # - CI3000
- Two sealed roller bearings (no greasing)
- Both round and flat posts compatibility
- Zinc plated
- Slotted yoke for adjustability
- Ratings: 2,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Steel Gate Hinges

The rusted Original Badass Hinge

The Rusted ORIGINAL BADASS gate hinge by SHUT IT is CNC machined to the tightest tolerances in the industry. Due to SHUT IT's unique bushing design The Rusted ORIGINAL, like all other SHUT IT gate hinges,

produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3100
- Two sealed roller bearings (no greasing)
- Both round and flat posts compatibility
- Slotted yoke for adjustability
- Ratings: 2,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

www.shutitgatehardware.com

Steel Gate Hinges

The hd badass hinge

The HD (Heavy-Duty) BADASS Hinge is one mighty dude! Designed for the rarest of installations where even The ORIGINAL is not BAD enough. SHUT IT has designed the HD to hold

50 percent more load than The ORIGINAL. The HD is CNC machined to the industry's tightest tolerances and uses SHUT IT's unique bushing design.

Specifications:

- Part # - CI3500
- Three sealed roller bearings (no greasing)
- Both round and flat post compatibility
- Zinc plated
- Slotted yoke for adjustability
- Rating: 3,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Steel Gate Hinges

The hundred Year hinge

SHUT IT's biggest and baddest gate hinge is so durable our standard lifetime warranty does not do it justice. Therefore, the Smartasses at SHUT IT decided to warranty the product for 100 years. The

Hundred Year Hinge uses the unique SHUT IT bushing design with upgraded hardware for additional strength and longevity.

Specifications:

- Part # - CI3520
- Upgraded three sealed roller bearings (no greasing)
- Upgraded Grade 8 bolt (shaft)
- Zinc Plated
- Heavy-Duty Yoke
- Rating 3,000 lbs
- Warranty: 100 years

www.shutitgatehardware.com

Steel Gate Hinges

The baby badass hinge

Made with the same badass technology but designed for the lighter side, the Baby BADASS is the perfect gate hinge for high end pedestrian gates and low usage drive entry gates.

Specifications:

- Part # - CI3600
- Sealed roller bearing (no greasing)
- Both round and flat post compatibility
- Zinc plated
- Slotted yoke for adjustability
- Ratings: 500 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Steel Gate Hinges

The Rusted baby badass Hinge

Made with the same badass technology used for BIG hinges, but designed for the lighter side, the Rusted Baby BADASS and the is the perfect gate hinge for high end pedestrian gates

and low usage drive entry gates.

Specifications:

- Part # - CI3620
- Sealed roller bearing (no greasing)
- Both round and flat post compatibility
- Slotted yoke for adjustability
- Ratings: 500 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Stainless Steel Gate Hinges

The stainless badass hinge

Like The ORIGINAL
BADASS, The Stainless
Steel BADASS Gate Hinge
by SHUT IT is CNC
machined to the tightest
tolerances in the industry.
However, for this hinge we
went all out and used

stainless steel for ALL the components. Yes, we said ALL components (even the bearings).

Due to SHUT IT's unique bushing design The Stainless Steel
BADASS, like all other SHUT IT gate hinges, produces near
frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3800
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- Ratings: 2000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

aluminum Gate Hinges

The aluminum badass hinge

Like The ORIGINAL BADASS, The Aluminum BADASS Gate Hinge by SHUT IT is CNC machined to the tightest tolerances in the industry. Unlike The ORIGINAL, the Aluminum BADASS is made out

off...Wait for it..... ALUMINUM!!!

Due to SHUT IT's unique bushing design The Aluminum BADASS, like all other SHUT IT gate hinges, produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3400
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Aluminum Gate Hinges

The combo badass hinge with aluminum body

The Combo BADASS Gate Hinge was designed using the same technology as all our BIG hinges, but with the understanding that not all installations are exclusively steel or aluminum. The Combo

BADASS is perfect for that high end installation where an aluminum gate is welded to a steel end-post in the field.

Specifications:

- Part # - CI3300
- Two sealed roller bearings (no greasing)
- Both round and flat post compatibility
- Slotted yoke for adjustability
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

aluminum Gate Hinges

The combo badass hinge with steel body

The Combo BADASS Gate Hinge was designed using the same technology as all our BIG hinges, but with the understanding that not all installations are exclusively steel or aluminum. This Combo

BADASS is perfect for welding gates upside down, or in the rare cases where you have an aluminum end-post and a steel gate.

Specifications:

- Part # - CI3200
- Two sealed roller bearings (no greasing)
- Both round and flat post compatibility
- Zinc Plated (steel components only)
- Slotted yoke for adjustability
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Aluminum Gate Hinges

The aluminum baby badass hinge

Made with the same badass technology as our BIG hinges, but designed for the lighter side, The Aluminum Baby BADASS is the perfect gate hinge for high end aluminum pedestrian gates and low

usage drive entry gates.

Specifications:

- Part # - CI3650
- Sealed roller bearing (no greasing)
- Both round and flat post compatibility
- Slotted yoke for adjustability
- Ratings: 500 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

aluminum Gate Hinges

The baby badass combo hinge

Made with the same badass technology as our BIG hinges, but designed for the lighter side, The Baby BADASS Combo is the perfect gate hinge for high end aluminum pedestrian gates and low

usage drive entry gates that are welded to steel end post in the field.

Specifications:

- Part # - CI3670
- Sealed roller bearing (no greasing)
- Both round and flat post compatibility
- Slotted yoke for adjustability
- Ratings: 500 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Bolt-on Gate Hinges

The bolt-on badass hinge

Like The ORIGINAL, all bolt-on gate hinges by SHUT IT are CNC machined to the tightest tolerances in the industry. The Bolt-On BADASS was designed to be used on gates where welding the

hinges to the gate and the end post is not an option.

Due to SHUT IT's unique bushing design The Bolt-On BADASS's, like all other SHUT IT gate hinges, produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3700
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- Flat Bolt-on brackets for through bolting
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Bol t-on Gate Hinges

The hal f bol t-on badass hinge

Like with The ORIGINAL, all bolt-on gate hinges by SHUT IT are CNC machined to the tightest tolerances in the industry. The Half Bolt-On BADASS was designed to be used on gates where welding

the hinges to the end post is not an option (no field welder)

Due to SHUT IT's unique bushing design The Half Bolt-On BADASS's, like all other SHUT IT gate hinges, produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3770
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- Flat Bolt-on brackets for through bolting
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Bol t-on Gate Hinges

The bol t-on baby badass hinge

This hinge Bolt-on Gate Hinge by SHUT IT is CNC machined to the tightest tolerances in the industry. The Bolt-On Bady BADASS was designed to be used on smaller gates where welding the hinges to the

gate and the end post is not an option.

Due to SHUT IT's unique bushing design The Bolt-On BADASS's, like all other SHUT IT gate hinges, produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI3750
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- Flat Bolt-on brackets for through bolting
- Ratings: 300 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Bol t-on Gate Hinges

THE 4" ROUND BOLT-on badass hinge

Again, this bolt-on gate hinges by SHUT IT are CNC machined to the tightest tolerances in the industry. Unlike The ORIGINAL, the 4" Round Bolt-On BADASS is is designed to strap around

a 4" round post and to a flat gate frame. This hinge produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI2051
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- 4" round strap on bracket
- Flat Bolt-on bracket for through bolting
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Bolt-on Gate Hinges

THE 6" ROUND BOLT-on badass hinge

This hinge is CNC machined to the tightest tolerances in the industry. Unlike The ORIGINAL, the 6" Round Bolt-On BADASS is designed to strap around a 6" round post and to a flat gate frame.

Due to SHUT IT's unique bushing design The Bolt-On BADASS's, like all other SHUT IT gate hinges, produces near frictionless movement with maintenance free usage.

Specifications:

- Part # - CI2053
- Two sealed roller bearings (no greasing)
- Slotted yoke for adjustability
- 6" round strap on bracket
- Flat Bolt-on Bracket for tough bolting
- Ratings: 1000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

Hardcore gate wheel s

In today's vernacular, **hardcore** is synonymous with extreme and that is a perfect word to describe SHUT IT! Gate Hardware's gate wheels. With all of its wheels, SHUT IT! goes to the extreme and uses the hardest steels in the Fence and Access Control Industries. We do this rather than hardening the wheel after it is machined. The result... a stronger gate wheel that is literally "Hard to the CORE".

www.shutitgatehardware.com

V-groove wheels

THE 4" OF HARDCORE V-GROOVE WHEEL FOR 1 1/2" FRAME

The 4" of HardCORE V-Groove Wheel for 1 1/2" Gate Frame is designed to be used on a gate with a 1 1/2" bottom rail. This wheel does not include carriage plates, so user will have to provide their

own wheel box or plate system. All HardCORE wheels use SHUT IT's unique bushing design, which fully utilizes the roller bearings.

Specifications:

- Part # - CI2415
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- 1045 Cold rolled steel (30RC rating)
- Rating 3,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

V-groove wheels

THE 4" OF HARDCORE V-GROOVE WHEEL FOR 2" GATE FRAME

The 4" of HardCORE V-Groove Wheel for 2" Gate Frame is designed to be used on a gate with a 2" bottom rail. This wheel does not include carriage plates, so user will have to provide their own wheel

box or plate system. **All HardCORE wheels use SHUT IT's** unique bushing design, which fully utilizes the roller bearings.

Specifications:

- Part # - CI2420
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- 1045 Cold rolled steel (30RC rating)
- Rating 3,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

www.shutitgatehardware.com

V-groove wheels

THE 4" OF HARDCORE V-groove wheel w/ carriage plate FOR 1 1/2" FRAME

The 4" of HardCORE V-Groove Wheel for 1 1/2" Gate Frame is designed to be used on a gate with a 1 1/2" bottom rail. This wheel includes a set of SHUT IT 4" HardCORE Carriage Plates, which

make for the ideal UL325 compatible installation. All HardCORE wheels use SHUT IT's unique bushing design.

Specifications:

- Part # - CI2515
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 3,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

www.shutitgatehardware.com

V-groove wheels

THE 4" OF HARDCORE V-groove wheel w/ carriage plate FOR 2" GATE FRAME

The 4" of HardCORE V-Groove Wheel for 2" Gate Frame is designed to be used on a gate with a 2" bottom rail. This wheel includes 4" HardCORE Carriage Plates, ideal UL325 compatible

installation.

Specifications:

- Part # - CI2520
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 3,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

V-groove wheels

THE 6" OF HARDCORE V-GROOVE WHEEL FOR 1 1/2" FRAME

The 6" of HardCORE V-Groove Wheel for 1 1/2" Gate Frame is designed to be used on a gate with a 1 1/2" **bottom rail**. This wheel does not include carriage plates, so installer will have to use alternative

installation technique. All HardCORE wheels use unique bushing design, which fully utilizes the roller bearings.

Specifications:

- Part # - CI2615
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- Minimum 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 5,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

V-groove wheels

THE 6" OF HARDCORE V-GROOVE WHEEL FOR 2" GATE FRAME

The 6" of HardCORE V-Groove Wheel for 2" Gate Frame is designed to be used on a gate with a 2" bottom rail. All HardCORE wheels use SHUT IT's unique bushing design, which fully utilizes the roller bearings. CARRIAGE

PLATES NOT INCLUDED.

Specifications:

- Part # - CI2620
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- Minimum 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 5,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

www.shutitgatehardware.com

V-groove wheels

THE 6" OF HARDCORE V-groove wheel for wheel boxes

The 6" of HardCORE V-Groove Wheel for Wheel Boxes is designed to be used on a gate with a standard 6" wheel box. This wheel is ideal for use with existing wheel boxes in a "retrofit"

repair. **All HardCORE wheels use SHUT IT's unique bushing design, which fully utilizes the roller bearings.**

Specifications:

- Part # - CI2625
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- Minimum 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 5,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

V-groove wheels

THE 6" OF HARDCORE V-groove wheel w/ carriage plate FOR 1 1/2" FRAME

This 6" wheel is designed to be used on a gate with a 1 1/2" bottom rail. It includes a set of SHUT IT 6" HardCORE Carriage Plates, which make for the ideal UL325 compatible installation. All

HardCORE wheels use SHUT IT's unique bushing design.

Specifications:

- Part # - CI2715
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- Minimum 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 5,000 lbs
- Warranty: Lifetime component replacement guarantee (5 years for bearings)

V-groove wheels

THE 6" OF HARDCORE V-groove wheel w/ carriage plate FOR 2" GATE FRAME

This 6" of HardCORE V-Groove Wheel is designed to be used on a gate with a **2" bottom rail**. This wheel includes a set of SHUT IT 6" HardCORE Carriage Plates, which

make for the ideal UL325 compatible installation. All HardCORE wheels use SHUT IT's unique bushing design.

Specifications:

- Part # - CI2720
- Two sealed roller bearings (no greasing)
- **Only 1 1/8" thick to reduce friction and debris issues**
- Zinc Plated
- Minimum 1045 Cold rolled steel (30RC rating)
- Slotted adjustable plates
- Rating 5,000 lbs

Warranty: Lifetime component replacement guarantee (5 years for bearings)

More badass gate products

Through the years we at SHUT IT! have prided ourselves in finding better ways to do things in the Fence and Access Control Industries. The products in this section are the result of many years of industry experience and allow our Badass Dealers to work smarter and safer.

www.shutitgatehardware.com

Guide Assemblies

The hardcore guide assembly

The HardCORE Guide Assembly is a smartass design by SHUT IT that replaces the industry standard guide rollers. Simply weld a 2" x 2" angle iron to your gate and attached the Guide Assembly to the endpost. This

standard version of the Guide Assembly is ideal for installations that do not have grade variations through the run distance of the gate.

Part # - CI2300

The hardcore guide assembly

This Extended version of the HardCORE Guide Assembly is ideal for installations that have grade variations through the run distance of the gate. Ideal for uneven terrain.

Part # - CI2350

fence/gate handling equipment

The badass gate jack

The BADASS Gate Jack is a perfect installation partner. The Gate Jack lifts and holds the gate in place for easy alignment and welding in the field. The product also reduces strain on the lower back during installation, thus reducing workers compensation claims.

Gate Jack Specifications:

- Part # C14000
- 1 ton (2,000 lbs) Jack
- 3/8" Heavy duty base plate for stability
- Slotted gate support baracket (2" spacing)
- 3" Support bracket

Badass fence/gate handling equipment

The badass gate truck

The BADASS Gate Truck is a customized dolly designed specifically for the fence industry. Use the truck to transport heavy gates or fence panels from the truck to the installation area.

Gate Truck Specifications:

- Part # - CI4100
- 3/16" base plate for use as a standard industrial grade dolly
- Heavy-duty rubber straps to hold gates/panels in place
- 900lbs capacity
- 10" solid rubber tires (no flats!)

ALSO AVAILABLE AS A COMBO PACKAGE WITH THE BADASS GATE JACK—PART # CI4200
